TO WHOM IT MAY CONCERN:

We have been very pleased with the results we have seen with the testing of Lotus Chemicals' No-Graffiti 264 Paint. The paint made graffiti removal and cleanup very quick, efficient and cost effective.

We tested the product by applying it to the wood surfaces of several of our bus passenger shelter benches that have been constantly tagged with graffiti. Shortly after applying the product, the benches were tagged with graffiti. To our surprise and amazement, we were able to remove the graffiti by simply wiping it off with some alcohol and a rag. Prior to using the No-Graffiti 264 Paint, we would have had to remove the bench and take it back to the shop for the graffiti to be sanded off. Afterwards, the bench would have been re-painted and re-installed.

By using the No-Graffiti 264 paint we have realized a tremendous saving in time (man-hours), material and equipment cost, as well as, discovered a quick and highly efficient way to attack our menacing graffiti problem.

Sincerely,

Omar Lopez, Manager of Public Facilities
Facilities Maintenance
Metropolitan Transit Authority of Harris County Texas
