To Whom It May Concern:

This is to serve notice that the Parking Operations Division of the Convention and Entertainment Department, used the Lotus Chemicals product in our parking garage in 2004.

The Parking Operations, Theatre District Parking, operates and maintains a 3,400 space parking facility that is constantly maintained for patron usage, safety, and aesthetic purposes. For years, we have experienced unsightly tire marks on the curbs of our entrances and islands and contacted Lotus Chemicals Inc. and purchased their yellow, Lotus Perm-stripe 267. This coating has reduced the number of times that we have had to repaint these islands to zero.

This product exceeded our needs and expectations satisfactorily, and I am pleased to recommend Lotus Chemical's Perm-Stripe 267 coating system.

Sincerely,

A handwritten signature in cursive script that reads "Reginald Randolph".

Reginald Randolph
Assistant Manager
Theater District Parking Division
