Re: Lotus No-Graffiti 264

Dear Mr. Cholera,

The Greater East End District graffiti abatement crew applied Lotus No-Graffiti 264 to ten test sites in July, 2009:

Peiser Park, sign

Gulfgate Center, sign

1000 Evergreen wall

1800 Evergreen & 1620 Evergreen, pedestrian crossing signs

600 Altic, railroad box

1225 Broadway, traffic light control box

1700 Dumble, Broadmoor neighborhood sign

Dumble at Jefferson and Dumble at Diez, stop signs

The product was tested after 3 ½ months for permanence, ease of graffiti removal, UV exposure, and color change. We found the product to perform as promised, on graffiti that had been applied with permanent markers, with easy removal using a common paint solvent. Lotus No-Graffiti 264 provided adequate protection on a variety of surfaces, including metal stop signs, wooden signs, steel boxes, and concrete walls against the irreparable damage usually resulting from permanent markers.

Although the test time was only 3 ½ months, the management district graffiti abatement staff could attest to the effectiveness of Lotus No-Graffiti 264 and suggest that it could be applied to a variety of surfaces and offer long term protection and easy removal of tagging that occurs.

Sincerely,

Martin Chavez
Constituent Services Manager
