Houston, TX 77289-0711

Dear Mr. Cholera:

Please consider this letter as an expression of my satisfaction regarding the Lotus Perm-White 266 Coating System which you applied to one large wall in several of our classrooms here at the University of Houston-Clear Lake. This application was done back in 2004 and we are very satisfied with the durability of this product.

The instructors find it very helpful to have a large wall as a Dry Erase surface in which to write assignments to their students. The Dry Erase surface is easy to clean up and it's great not to have to use chalk & erasers anymore.

Sincerely,

A handwritten signature in cursive script that reads "Anne Coppenhaver".
